	Benjamin V. Bush	166	6	168	5	231		2	177	106	9	244		231	157	180	5	6	1493

Harrison's majority over Van Buren in 1840 in this State was only 349; Polk's in 1844 over Clay, 6,332; Taylor's in 1848 over Cass, 13,537; Pierce's in 1852 over Scott, 19,446; Buchanan's in 1856 over Fremont, 83,160, and over Fremont and Fillmore combined, 1,025; Lincoln's in 1860 over Douglas, Bell and all opposition, 59,618; Lincoln's in 1864 over McClellan, 20,075; Grant's in 1868 over Seymour, 28,898; Grant's in 1872 over Greeley, 137,548.

Pennsylvania has done grandly in the great political battle of the Centennial year. Beside choosing the Hayes and Wheeler electoral ticket she has given the Republicans a clear gain of eight members of Congress, has elected a Republican Senate, and has chosen a new Assembly with a good working majority on our side. Thus the bad work of 1874 has been fully repaired, and Democracy has lost its last hold upon the good old Keystone State. Counties like Chester, Delaware, Lancaster, and Allegheny have even surpassed their old-time majorities for the Republican party, and have more than compensated for the Democratic gains in their stronghold. Pennsylvania has nobly borne her part in this hard-fought campaign.

MARRIED.

On the 23th of October, by the Rev. Thos. H. Huber, Mr. Joseph H. Buskirk, of Jackson Twp., and Miss Anna Maria Genthron, of Poccano.

At the Parsonage, in Middle Smithfield, October 31st, 1876, by the Rev. Chas. E. Van Allen, Mr. Moses Treible, and Miss Maggie Custard, both of Marshall's Creek, Pa.

At the M. E. Parsonage, Analomink, Pa., on Saturday, November 11th, 1876, by Rev. E. L. Martin, Mr. Henry Kresge, and Miss Emma Barry, both of Tohoyanna Mills, Pa.

DIED.

At the residence of her son, in Stroud township, on Sunday last, Mrs. ——— Kiteon, in the 70th year of her age.

In Hamilton, Nov. 13th, Mrs. Emma D. wife of W. S. Werkeiser, from consumption, aged 20 years and 4 months.

Special Notice.

WANAMAKER & BROWN, of Philadelphia, may well challenge all comers upon, at least, two points on which they congratulate themselves—namely, the excellence of quality of the material, and splendid serviceableness of the manufacture in all their garments. An artist on canvas can scarcely put the touches of his brush with more delicate and discriminating care upon a pet picture than the makers of Oak Hall clothing bestow upon every part and department of their work. Such scrupulous care is bound to tell. The public will certainly find it out more and more.

ORDINANCE No. 17.

Be it enacted and Ordained by the Burgess and Town Council of the Borough of East Stroudsburg:

To lay out a Street Forty feet wide. Beginning at a point in Courtland Street opposite the tenant house of Mrs. George E. Smith, thence through lands of J. R. Smith, N. 84, E. 33 Rods and 8 tenths to a post, thence along lands of J. R. Smith, and E. Locky, N. 60, E. 14 Rods to a post on land of J. Fenner.

ALSO—A Forty foot Street on the East Side of the D. L. & W. R. R., beginning on the line between J. R. Smith and S. Kistler, thence along the said D. L. & W. R. R., through lands of J. R. Smith, R. J. Blair, Paterbaugh & Lyon, and William Bush, ending in the Alley leading from Thomas Stemple's Farm to Courtland Street.

Approved September 4th, 1876.
PHILIP LYON, Burgess.
THEO. Y. HOFFMAN, Sec'y. (Nov. 16-4t.)

WALTON & WINTERMUTE.
Stroudsburg, April 20, 1876.

One Cow a Mine of Wealth.

The history of shorthorn cow, Duchers 6th, which was sold in 1853, at Earl Dacie's sale, in England, to Col. Morris, of Fordham, for 700 guineas, or \$3,675, is remarkable as showing the actual value of one good breeding animal. From this cow, which was calved in November, 1850, there may be traced in direct descent a number of animals which have sold for about \$500,000. Let it be admitted that as much of this value as may be depending on fancy or rich breeders, and is not the intrinsic value of the beef and milk produced; yet no one can help admitting that an immense value, estimated in these alone, has accrued to the world from this cow; and in proportion to this value may be estimated the profit to a breeder from any superior animal he may produce. A line of breeding animals is brought into existence which spreads out fan-like, and diverges year by year wider and wider, until we can no longer reach the bounds of the beneficial influence. It is in this that lies the value of any good animal, and it is an unfair disparagement to confine its value to the weight of meat upon its carcass, or its produce in milk and butter. The breeder who produces a superior animal sets in motion an impulse which must in time spread and increase enormously, and far beyond computation.—American Agriculturist.

The Terrible Cyclone in India.

LONDON, November 13.—A dispatch from Calcutta to the Times says it is reported that 20,000 persons perished in the cyclone of October 31, and some estimates place the loss of lives as high as 40,000. In the town of Barrickol, capital of the Bakergunge district 3,000 houses were leveled with the earth. Letters from survivors report that a great wave, nine feet deep, swept over the large island of Duhin Shalabzapore. The whole of eastern Bengal appears to have suffered severely from the cyclone, and Calcutta narrowly escaped. The reports of famine from Bombay are worse. A water famine is feared in some districts.

The biggest tree in California is not in the Yosemite Valley.

King's River Valley, in Fresno county, is 5,000 feet above the sea, and its walls, which are about 3,000 feet high, are precipitous. In this valley a new grove of colossal redwood trees has been discovered. One of them eclipses all that have been discovered on the Pacific coast. Its circumference, as high as a man can reach and pass a tape line around, is a few inches less than 150 feet. This is beyond the measurement of any tree in the California grove. The height is estimated at 100 feet; and a part of the top lying on the ground is over 100 feet in length.

According to the London "Lancet,"

a high medical authority, a new race of dairy-men has risen in the English metropolis, who churn the Thames, as it were, and make a good profit by the operation. By means of balls of hair and like substances, placed in the river below the city, they collect certain fatty matters which float upon the water's surface, and by processes known only to themselves convert the fats into butter which is good
